ANOTHER Plasticville, U.S.A. FIRST

Plasticville, U.S.A.

REG. U.S. PAT. OFF.

The first H. O. Plasticville, U.S.A., items to start a Christmas garden or "Pike".

This inexpensive plastic scenic equipment for a model railroad pike will create more sales because of the small amount of space required to show a complete town. Many apartment house hobbyists will now be customers, opening an entire new additional market for Plasticville, U.S.A.

They are realistically built to $\frac{1}{8}$ " scale with fine architectural detail and permanent color and durability. They come knocked down for easy assembly and occupy a space $\frac{1}{4}$ of that required for popular size train accessories. All this allows more time and space for actual railroad operation.

This is the beginning of our Plasticville H. O. Program, other popular H. O. Models will follow.
