

ALL ABOARD FOR  
*Plasticville, U. S. A.*  
Reg. U.S. Pat. Off.  
**HO LINE**

Come aboard the new Plasticville, U.S.A. HO Line for greater sales and profits.

This inexpensive plastic scenic equipment for a model railroad pike will create more sales because of the small amount of space required to show a complete town. Many apartment house hobbyists will now be customers, opening an entirely new additional market for Plasticville, U.S.A.

They are realistically built to  $\frac{1}{8}$ " scale with fine architectural detail and permanent color and durability. They come knocked-down for easy assembly and occupy a space  $\frac{1}{4}$  of that required for ordinary size train accessories. All this allows more time and space for actual railroad operation.

Give your counters and windows the green light for Plasticville, U.S.A.—greater sales and profits this fall.
