BACHMANN . . . the oldest manufacturer of sunglasses in the U.S.A.

BACHMANN, of Philadelphia, originated in 1833, began as a manufacturer of products made of ivory horn, and tortoise-shell. The major portion of this business was the manufacture of high-back, Spanish type combs for the aristocracy of the south.

After the Civil War other types of hair ornaments and walking cane handles were made.

In 1902 BACHMANN began to make ladies side combs from celluloid, which was the first known plastic material.

The year 1912 saw the introduction of the first BACHMANN optical frames made of celluloid and referred to as "zylonite." In 1929 the optical sunglass line called "solarex" was born.

1950 saw BACHMANN's introduction into the hobby field with

their world famous "plasticville" scale building line for model railroading. Since that time the BACHMANN hobby line has grown to include N and HO scale electric trains, buildings and accessories; HO scale electric roadracing, miniature hand painted and decorated mini-planes; nature craft paint-by-number kits of birds, dogs and animals. Recently a complete hobby kit line of scale planes, tanks, helicopters and ships were added to the line.

BACHMANN is also proud of their growth in the sport goggle field carrying the world's most complete sport goggle line for hunting, skiing, fishing, cycling, boating and target shooting.

BACHMANN is now 139 years young. Our marketing experience and technical know-how keeps us

constantly aware of such necessary business ingredients as: Service, Quality, Profits for All.

Products of BACHMANN . . .
