BACHMANN... *quality since 1833*

Bachmann means quality in model railroading and other hobby products featuring imaginative engineering.

"Simplimatic" plug-in wiring

Our exclusive plug-in wiring means no stripping, no screw drivers and no crossed wires.

Spade lugs

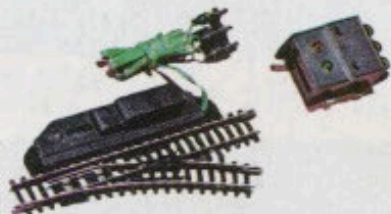

Spade lugs at the other end of wiring means time saved and no more stripping when you hook up to the power pack.

Authentic detailing, metal axles

We take great pride in close detailing. The "micro" printing on the surfaces of the cars is the same process used in printing the finest watch dials. HO scale uses Delrin wheels/metal axles.

Lighted switches

Electric switches have LIGHTED CONTROLLERS in HO and N scale.

Operating accessories

Bachmann HO scale operating accessories feature the operating caboose, gravel car, dual crossing gates, log car and Bascule bridge.

Exclusive train sets

- The Budd Company Metroliner™ in HO and N scale.
- The Auto-Train™ in HO and N scale.
- The Northerner, featuring the exclusive 4-8-4 Northern loco with 56' tender, in HO and N scale.

World famous Plasticville® buildings

HO Plasticville® buildings feature snap-fit assembly and require *no glue*. American prototypes.
