When we decided to create the industry's finest Scenic Accessories Line, we hired the man who 'wrote the book' on the subject. The result: the Best Quality line in America. There are so many innovative features in this "home grown" and "hand-made" collection that we don't have room to list them all. So be sure to get all the details from your favorite train store folks.

TUNNELS

When we decided to get into "The Tunnel Business," we made the decision to do it right.

Each tunnel is individually packaged, fully-decorated and features an easy-to-assemble notching system, eliminating gluing entirely—if you choose.

Our curved tunnel can be used individually or, if paired, will make a full 180° turn tunnel. And the beauty is, you won't know it's not one piece.
